

U.S. Distributor Matrix

Distribution Matrix Strategy

HPE is committed to the Channel. We believe in the value of expanding our reach into the market through a network of Authorized Distributors in the United States, to support our authorized Value Added Resellers. This route to market ensures we maximize the **Power of One**.

The **Distributor Matrix** document is designed as a guide to understand HPE's Distribution Strategy that categorizes our Distributors in three kinds, based on the product types and categories they are authorized to sell.

General

TD SYNnex

INCRAM MICRO

ANNO

Categorization Description

Product Type

Stock BTO

New products of standardized configuration.

Configurable CTO

New products requiring HPE factory integration.

Replacement Parts

Certified new HPE genuine replacement parts for servers, storage, and networks products.

Obsolete / EOL

Legacy and older generation technology.

HPE Renew

HPE certified remanufactured products.

As - Is

Products purchased without warranty, ineligible for returns, refunds, exchanges and program or promotional benefits.

Excess

Products that have not been previously used but returned for ordering errors, shipment errors, and stock adjustments.

Business Unit

Compute

Industry standard Servers & Options.

HPC and AI

Hyperconverged Systems & Mission Critical Servers.

Storage

Intelligent Data Storage.

Networking

Wireless, wired, SD-WAN, Security, and management solutions.

Services

HPE Services / products to be used for the end customer, not for resale purposes.

The following slides contain categorization tables, the boxes marked with a  indicate that the Distributor is authorized to sell that specific product type / business unit.
